

DESIGN, COMPOSITION AND CRITIQUE WORKSHOP

**Feeling frustrated with your current level of artwork?
Wonder what abstraction is all about?
Craving information or inspiration but unsure where to find it?
THIS IS THE CLASS FOR YOU!**

WITH PAINTING/DRAWING INSTRUCTOR SUSAN JACOBS

This workshop will explore design elements, and compositional problems, while addressing your own works.

You will increase your ability to be creative in your work, and develop better compositions!

Learn to take a work of art from dull and boring, to pleasing and interesting.

Basics in design and composition, and abstraction will be addressed, as well as easy to understand, "hands on" approaches.

Supplies for experimentation will be provided, but also bring your own sketch pad for brainstorming, and some references that interest you (more will available at workshop).

You're welcome to bring your own supplies in your favorite medium (oils, acrylics, pastels, watercolor etc.) to start something new or bring your current work in progress for new ideas and critiquing.
